BANCROFT WINSOR

Grower of the Aristocrats of the

GLADIOLUS WORLD

FLYING CLOUD FARMS

Acushnet Station, New Bedford, Mass., U.S.A.

way to get them to you safely. We start planting April 1st, so all orders should be at hand before that date; although large bulbs of most varieties and the mixture will be available until about May 1st.

SUBSTITUTION

In no case will any variety be substituted for the variety ordered. However, as many of the varieties listed are in small supply, I would appreciate the privilege of substituting larger or smaller bulbs of the same variety, when necessary.

PRICES

All prices are as low as those of any reputable grower, whose list is at hand, but if lower prices are quoted to you by any reliable grower we will meet those prices as long as our stocks are available.

When there is a figure before the price of a variety as 2—20c or 5—25c, etc., it means two bulbs or bulblets for twenty cents or five bulbs or bulblets for twenty-five cents as the case may be.

MIXTURES

Many people are interested in Gladiolus who want the best of blooms, but do not care to keep the varieties separate, or to know their names. We offer only one mixture made up from our named varieties, and each lot of fifty will contain at least twenty different kinds and will include many of the very best sorts of which we have a surplus. All will be of blooming size, the smaller bulbs usually being the more expensive varieties. This mixture will include only the large flowered and prim. grandiflorus varieties and no prim. unless you especially state you want some of them. Fifty bulbs for \$2.00, or, we will send ten each of five varieties named for the same price, our selection of varieties.

Price List

Spring, 1932

A. E. AMOS (Mair) Light lilac pink, many open on a strong straight spike. S 50c, Blts. 2-25c.

AFLAME (Hornberger) Prim. grand. Scarlet, very large blooms on tall spike, best in its class. L 2-20c, 10-\$1.00, M 10-50c, S 10-30c, Blts. 50-20c, 1000-\$2.00.

AIDA (Pfitzer) Early dark violet blue, strong grower, good exhibition variety. L 20c, 10-\$1.60, S 10-50c, Blts. 100-80c, 15-25c.

ALBATROSS (Pfitzer) Large pure white blooms on a tall spike, many times a winner. Blts. 100-\$2.80, 5-20c.

ALMOND BLOSSOM (Gilrey) Beautiful blush white, many open on a good spike, very little stock in this country. Blts. 2-25c.

ALPHEUS (Errey) Beautiful shade of light salmon pink with a scarlet blotch, many blooms open and while it is not widely known it is one of Errey's very best. L 50c, S 2-30c, Blts. 6-25c.

ALT. WEIN (Pfitzer) A light "blue" with a dark blotch and one of the best in this color section, if you want a good strong growing blue try it. L \$1.00, Blts. 5-40c.

AMETHYST (Symons) Lilac rose, deeper color at the edges with a white center line in each petal, real Australian exhibition type and one of the very best show glads we have imported, by the originator of the new ones, Silversheen and Prince Charming. L 50c, 10-\$4.50, M 30c, 10-\$2.25, S 20c, Blts. 10-35c.

ANGEL'S DREAM (Ellis) Pretty pink with many open, Phipps type but crooks in extreme heat. L 40c, Blts. 10-40c.

ANNIE LAURIE (Brown) Pale pink and white P. G. Fine basket flower and often a winner. L 8-40c, Blts. 1000-\$1.00.

APACHE (Doney N. Z.) Orange red with a white feather, smoky at edges, good. L 65c, M 45c, S 25c.

APPLEBLOSSOM (Pfitzer) Color as the name indicates, and the leader in this class at anywhere near its price, grand variety and rapid increaser. L 2-25c, Blts. 25-25c.

APRICOT GLOW (Palmer) P. G. proven valuable as a seed parent as well as basket flower. L 10-60c, Blts. 100-15c.

ARISTOCRAT (Bill) Orange prim. grand. fine color and one of the best in this class. L 10-\$1.30, Blts. 100-30c.

AVERILL (Errey) Rose salmon with large yellow blotch, spike tall with many blooms open at once which are perfectly placed, not one of the very newest but one of the best and deserves to be more widely grown. L 2-25c, 10-\$1.00, S 8-25c, Blts. 100-75c.

AYRSHIRE (Mair) Rose lilac blooms with decided white blotch, typical Mair type spike with over 20 buds and 10 or more open at once, sure a good one. S 50c, Blts. 2-25c.

BELINDE (Pfitzer) Large cream flowers many of which are open at once on a good spike, rapid propagator, better than its price would indicate. L 2-25c, 10-\$1.00, S 10-35c, Blts. 100-50c.

BERTY MAIR (Mair) When introduced Mair said "will be an improvement on Bertie Snow" and my experience bears him out, the color is a bit lighter, the edges slightly ruffled and to date it has never flecked, surely should be in every collection of top-notchers. L \$1.60, S 50c, Blts. 2-25c.

BERTY SNOW (Mair) Soft lavender, large flowers, many open, one of the best ten. L 2-25c, 10-\$1.00, M 10-45c, S 10-30c, Blts. 10-25c, 1000-\$1.75.

BETTY (Mair) Tall graceful spike bright orange rose with white throat and light silvery edges on the petals. The color is extra fine. This is one of Mair's best ones. L \$1.25, M 75c, S 50c, Blts. 3-50c.

BETTY NUTHALL (Salbach) Light coral. orange throat, one of the best originations of the last few years. L 2-35c, L 10-\$1.50, M 10-75c, S 10-30c, Blts. 100-30c, 1000-\$2.00.

BIG NAN (Adams, Australia) Good spikes, will open about ten well placed blooms of an orange scarlet color, looks to have a future. S 75c, Blts. 2-30c.

BLONDE (Gilrey) Beautiful peach color, very highly spoken of in Australian Journals and while it opens only seven or eight, its color is such that everyone wants it. Blts. 4-20c.

BLUE DANUBE (Pfitzer) Very clear color, with darker blotch and as near blue as any of them, like it the best of his light blues. Flowers large, about six or seven open, spike extra good for a blue, color much bluer than Blue Triumphator. L \$5.00, M \$3.00, S \$1.50, Blts. 40c each.

BURWOOD GEM (Brown) Another good salmon pink Australian seedling with carmine blotch, good decorative variety that can be grown to show quality. Blts. 3-20c.

CALEDONIA (Mair) One of Mair's best five, a light pink rather heavily flecked darker, tremendous spike that will open twelve large blooms, surely a wonderful "Glad". Blts. 2-25c.

CANBERRA (Errey) Best exhibition yellow to date, tall rugged grower that will open up to twelve large blooms of good color at once, the spike that was runner up for best spike in the show at New York had eleven open. Blooms from bulbets and a good propagator. Has been a winner many times in this country. L 25c, 10-\$2.00, M 2-35c, 10-\$1.50, S 4-35c, 10-70c, Blts. 100-\$1.00, 1000-\$8.00.

CARA MIA (Miller) A pretty creamy pink, P. G. that is early and extra good in this class. Prize winner at the National Show, every spike comes straight and although the blooms are not large the color makes up for lack of size. L 20c, 10-\$1.75, M 3-25c, Blts. 100-50c.

CARMENIA (Mair) A new color in Glads, a "carmine crimson" Mair says, certainly a hard color to describe, white throat and the usual Mair spike. S 70c, Blts. 20c.

CARRICK (Mair) This odd colored slate brown smoky will be a good addition as a novelty for it makes a grand spike with ten or more large flowers open at once, strong grower, much better than the price indicates. L 2-30c, M 2-20c, S 4-20c, Blts. 40-25c.

- CHARM (Mair)** An older variety but still a good one. Its pale rose white color is very attractive. L 2-35c, M 2-20c, S 4-20c, Blts. 40-20c.
- COMRADE (Mair)** Another brick colored smoky with a cream throat, rather early, certainly Mair has produced some fine things along these color lines and as his spikes are always of exhibition type every variety is worth while growing. L 40c, S 2-25c, Blts. 10-30c.
- COPPER BRONZE (Kunderd)** A prim, of just that color, unusual and many people like it. L 10-50c.
- CORONADO (Briggs)** White with purple blotch, enormous ruffled flowers that grow small rather too fast as they go up the spike and too few open at once for me, very showy however. L 30c, S 2-20, Blts. 10-20c.
- CORYPHEE (Pfitzer)** A most beautiful pink color, opens plenty of well placed blooms, voted very high at last N. E. G. S. Show symposium. It is hard to grow straight in the usual hot summer weather of our section. Blts. 15-25c.
- DAVID AIRDRIE (Mair)** Rosy pink color with lighter center, many blooms open on a tall spike, extra good for this weak color class. L 20c, M 15c, S 10-60c, Blts. 20-20c, 100-50c.
- DAVID PRIOR (Mair)** Orange scarlet with cream throat and cream lines in petals, blooms of good substance, slightly ruffled and fluted on the edges. Spikes extra tall and strong. L \$2.00, S 75c, Blts. 2-30c.
- DESDEMONA (Vilmorin)** Many smokies have been introduced recently but this one still wins and continues very popular. L 20c, Blts. 50-20c.
- DIGNITY (Mair)** A beautiful soft pink that rivals Coryphee in color. Spikes will open nine or ten on a twenty bud spike. S 30c each, Blts. 5-25c.
- DRAGON LYONNAISE (Prins)** Here is a freak that is sort of double with horns on the back of its petals, Prince of Wales color and is said to be a sport of it, should be valuable in hybridizing work. L 80c, M 40c, S 25c, Blts. 10-50c.
- DR. MOODY (Kinyon)** A fine colored big lavender that opens many large blooms on a good spike. Have seen many wonderful spikes of this variety. L 2-20c, 10-\$1.00, M 4-25c, 10-60c, S 10-30c, 100-\$2.50, Blts. 100-50c.
- DR. NELSON SHOOK (Kunderd)** A tall rugged spike of ruffled blooms that falls in the weak rose red class and can usually win in spite of its coarseness, better than Taro. L 10-60c.
- DUCHESS OF ATHOLL (Mair)** A wonderful exhibition variety, large showy cherry red flowers with a white blotch on an enormous spike and will open twelve blooms, one of Mair's very best. S 2-30c, Blts. 12-50c.
- DUCHESS OF YORK (Mair)** Ashy rose with a white blotch. Spike is as Mair says "counterpart of Bertie Snow except for color" so the quality is well explained. Sure one of the best at any price. L 1-20c, 10-\$1.40, M 2-25c, 10-75c, S 10-45c, Blts. 100-25c.
- ELEGANCE (Errey)** Cream center with pale rose lilac edges, has a small raspberry feather, makes a good show spike of twenty buds. L 50c, Blts. 5-25c.
- ELIZABETH (Mair)** Color is a creamy ground with deep rose at the edges makes a wonderful spike of twenty or more buds and ten or twelve open. L \$1.50, M \$1.00, S 40c, Blts. 3-25c.
- ENSIGN (Errey)** Ensign and Victor are the "red with white blotch twins." Very similar except for a slight difference in the scarlet color. Both are rugged strong growers and the large white blotch is very striking. Many times a winner. L 25c, M 20c, S 10c, Blts. 10-25c.
- EUREKA (Brown)** Salmon with a red blotch, many open and a big winner in Australia. L 25c, S 3-25c, Blts. 10-25c.
- FAITH (Kinyon)** A new lavender blue that is stronger color, better substance, opens more and holds its color better than Blue Triumphator, although not equal to it in size of bloom. L \$2.00, Blts. 10-\$1.00.
- FALLEN LEAF (Metzner)** A very fine smoky that is not well enough known, tall straight grower, winner at Hartford this year. L 50c, Blts. 10-50.
- FAUST (Mair)** Here is a very striking novelty, brownish red (mahogany) color overcast with slate, a rather different color than most smokies and builds up a fine spike. L 65c, M 40c, S 20c, Blts. 10-50c.
- FIELD MARSHALL (Mair)** Dark garnet red overcast with a light slate that makes it one of Mair's most popular varieties. The usual Mair show spike with twenty or more buds and ten to twelve open. L 75c, M 40c, S 20c, Blts. 10-40c.
- GAY HUSSAR (Salbach)** An orange red with a pink tinge. Spike is tall and straight. The blooms are of good size and well placed. Good propagator. Blts. 100-60c, 1000-\$4.00.
- GENERAL MANGIN (Lemoine)** A tall pure red with a darker blotch, very showy blooms of good size on a tall spike, a real good one. Blts. 4-25c.
- GERTRUDE ERREY (Errey)** A well known decorative variety, shell pink on the outer part of the flower shading to creamy white in the center, flowers large and spikes perfectly formed. L 10-50c, Blts. 100-25c.
- GERTRUDE (Mair)** A pretty novelty that is orange rose in color with a decided light slaty overcast that produces an extraordinary color effect. Certainly worth while. L 40c, S 2-20c, Blts. 10-25c.
- G. H. HUGH (N. Z.)** Large flowers of orange salmon with raspberry throat, comes well recommended. L 75c, S 35c, Blts. 4-25c.
- G. J. MACKAY (N. Z.)** Salmon red with darker feather. Flowers enormous and they hold up well. L \$4.25, S. 40c.
- GLADDIE BOY (Bill)** One of the very best P. G.'s, I grow. Fine orange color with lemon throat, always straight, early bloomer, good substance, opens eight and I like it much better than Ethelyn or Orange Queen. L 2-25c, 10-\$1.00, Blts. 100-20c, 1000-\$1.00.
- GLADYS (Mair)** Orange rose with a white throat, petals are striped vermillion and have a light grayish tinge that makes a fine combination. Very large strong spike. Mair says one of his best. Blts. 2-25c, 10-\$1.25.
- GLENBURN (Mair)** Identical to Queen Mary in every way except color. This one shows a bit of light pink at the edges and is more ruffled. Its likeness to Queen Mary tells the story to anyone that knows this wonderful variety. S 25c, Blts. 4-25c.

GLORIOSA (Mair) Bright scarlet with a white blotch. Straight tall spike with many open, rather similar to King George. L 35c, S 4-20c, Blts. 75-50c.

GRAF ZEPPELIN (Pfizer) Bright orange scarlet with small white feather. Spike is tall and straight, has won many awards and is one of the best in this color class. L \$4.00, M \$2.00, S \$1.00, Blts. 20c each.

GUY MANNERING (Mair) The only purple from this originator and a very fine one. Has slight white feather and line in each petal. Extra tall grower and opens many fine well placed blooms. One of the very best purples we have seen and should be much more widely grown. L \$1.00, S 30c, Blts. 3-25c.

HARBINGER (Sanford) Prim Grand. Burnt orange and a real good one for this class. L 10-80c, M 6-35c.

HELEN HOWARD (Austin) Light yellow buff with salmon pink flecking, making a pretty color combination. L 10-60c.

HELEN JACOBS (Salbach) A new one from California that is pink and cream. If Salbach introduces it the quality must be good. L \$1.00, S 25c, Blts. 10-20c.

HELEN WILLS (Salbach) A very fine white that goes a bit creamy in the throat. Tall straight grower of good substance. One of the very best. L 10-80c, Blts. 30-20c.

HINEMOA (N. Z.) A sensational novelty, a difficult color to describe, brownish red, heavily flaked, with a large yellow blotch which makes a strong contrast that is most sensational. S 1-20c, 10-\$1.75.

HYACINTH (Gilrey) Much the color of Mr. Frederick Christ and said by many to be its superior. The flowers are very large, six inches or more, but from my short experience with it Mr. Frederick Christ is a better variety. L \$6.00, M \$4.00, S \$3.00.

IREMEL (Errey) A bright crimson with a cream blotch, large flowers on a straight spike and the best in this color class. Blooms from bulblets. L 45c, S 15c, Blts. 5-25c.

IVERNIA (Errey) Light pale pink sometimes flaking a bit with rose pink on the edges of the petals. A super exhibition variety. Tall well formed spikes with about ten large, perfectly placed flowers. Almost every sipke exhibition quality. L 50c, S 30c, Blts. 2-25c.

JANE ADDAMS (Decorah) Good exhibition lavender, blooms very large and well placed. L 2-25c, 10-\$1.00.

JANET (Crow) Deep pink, with strong smoky sheen, good grower and the best for the smoky P. G. class. Blts. 15-20c, 100-\$1.00.

JEAN MAIR (Mair) Good large carmine blooms with a white blotch many open on tall spikes. Good exhibition variety. L 75c, S 25c, Blts. 3-25c.

JEANIE SMITH (Mair) Scarlet with cream throat, dark feather, about all blooms open at once, but are not as large blooms as most Mair varieties. L 25c, Blts. 20-20c.

JESSIE (Mair) Large rose colored blooms with a white blotch, spikes tall and blooms well placed. One of Mair's best five. L 60c, S 20c, Blts. 10-25c.

JOERG'S WHITE (Joerg) Very large white blooms with a slight lavender feather, tall spikes of exhibition type. This variety consistently wins in the white with slight markings, class and nothing can beat it, when well grown. L 10-90c, 2-25c.

JOHN HILL (Mair) A sensational new smoky from Mair. Tall straight spike many blooms open. Color, brick red with a large cream blotch, flecked darker on the edges of the petals. Blts. 20c each.

JOHN RAMSAY (Mair) A new one from Mair, just released. Salmon pink in color with slate flecking on the outer edge of petals. Long straight spike showing twenty-two buds opening ten or twelve at once. Wonderful exhibition variety. Blts. 15c each.

JONKHEER VAN TETS (Pfizer) Very large pure white that grows tall and propagates well. Will open about eight blooms at once that will measure six inches across. The best white I know. L \$1.25, Blts. 3-20c.

JUBILEE (Kemp) Good lavender with enormous blooms, about five open at once. The spike is tall and the placement of flowers good. Now the price is down it should be more widely grown. Blts. 10-35c.

KING ARTHUR (Arenius) A new lavender variety with large blooms that open very flat and are very ruffled and fluted, substance extra good. L \$20.00, S \$8.00, Blts. \$2.00 each.

KING GEORGE (Mair) One of Mair's best known originations, large crimson blooms with strong white blotch, tall exhibition spikes. L 25c, 10-\$1.75, Blts. 12-20c.

KRIMHILDE (Pfizer) The best low priced light lavender. Tall spike with well placed blooms. Much better than the price indicates. L 10-60c, Blts. 100-25c.

KYLE (Mair) Dark rosy lilac flowers of large size on a very tall spike that will open twelve or more at once. A wonderful exhibition variety. L 75c, M 50c, S 25c, Blts. 12-50c.

LAIDLEY (Errey) This is one of my favorites for it is a wonderful commercial variety and extra good for exhibition. Every spike comes tall and straight with perfectly placed blooms that are slightly ruffled. The color being cream that goes to a deep pink on the outer edges, and shows a small crimson spot in the throat. Has won many awards the past two years. L 75c, 12-\$7.00, Blts. 12-75c.

LAVENDER DOUGLAS (Hevenor) A lavender sport of Mrs. Leon Douglas identical except lavender instead of salmon pink. L \$3.00, Blts. 2-30c.

LAVERNA (Errey) Pretty clear light pink with a white throat and small red feather. Blooms are very large and well placed, about eight open on a strong tall spike. This variety should be more widely known as it is one of Errey's best. L 40c, S 10c, Blts. 15-25c.

LIBELLE (Pfizer) Claimed to be better than Mrs. Von Konynenburg. Flowers larger and placement better. A real heliotrope shade. L \$4.50, M \$2.50, S \$1.75, Blts. 40c each.

LILLIAN FAWKES (Australian) Rosy lavender with yellow blotch, streaked carmine. Ten or more flowers open, unusual coloring and stock scarce. S 25c, Blts. 6-25c.

LILLIE (Mair) Lilac with a white throat. Spikes are tall, strong grower and makes plenty of bulblets. L 25c, S 4-25c, Blts. 20-30c.

LILYDALE (Gilrey) A giant exhibition white, with good size blooms. Opens about ten well placed on the spike. One of Gilrey's best. L \$1.50, M \$1.00, S 75c, Blts. 2-25c.

LINDENOW (Errey) Absolutely cream self. Many well placed blooms open on a tall spike. A winner in the cream class. L 40c.

LOCHNAGAR (Mair) Really a mahogany color, Mair calls it dark slaty rose, with a white blotch. Flowers are large and well placed on a very tall spike. Although a good propagator, stock is still rather scarce. One of Mair's very best. L \$2.00, M \$1.50, S 70c, Blts. 20c each.

LOYALTY (Austin) Very strong growing yellow, blooms are large and ruffled. L 1-25c, 10-\$2.00, S 2-20c, 10-80c, Blts. 15-25c.

MAID OF ORLEANS (Pfitzer) A new white just released that some list as a P. G. and it can easily win in that class. This and Jonk V. Tets are the two best whites I have ever grown. Blts. 40c each, 10-\$3.50.

MAMMOTH WHITE (Pfitzer) The largest pure white we know. Spikes are tall and a fine exhibition variety. Won best spike in the show at New Bedford the past season. L 75c.

MANDARIN (Decorah) A salmon orange P. G. with yellow throat that is a rapid propagator and good decorative variety. L 15c, 10-\$1.25, Blts. 100-40c.

MARMORA (Errey) This wonderful variety is so widely known and it has been such a sensation at the shows little need be said of its merit. Its color is a silvery lavender gray with a petunia blotch. Flowers are large and perfectly placed and have seen fourteen open, although ten are more common. It is a seedling of Emile Aubrun, not a sport as has been usually understood. M 10-75c, S 10-40c, 100-\$3.25, Blts. 100-30c, 1000-\$2.75.

MAROCO (Pfitzer) Dark black red flaked even darker and has a glowing sheen which stops it from being dull as are many varieties of this color, a rapid propagator. L 30c, S 2-25c, Blts. 10-25c.

MARVEL (Mair) Although not the enormous spike of some of Mair's varieties, the rose with golden yellow center makes a color combination that is really a "marvel" hence its name. L 20c, S 2-15c, Blts. 15-25c.

MARY ELIZABETH (Dr. Stevens) New tall white seedling with light yellow throat, blooms of heavy texture, spikes always straight with eight open at one time. Silver medal for best seedling at Boston, 1930. L \$15.00, Blts. \$1.00 each.

MARY O'MINE (Austin) A large white that needs cool weather to be at its best. L 10-90c, M 10-60c.

MAURICE BARRES (Lemoine) Yellow with garnet throat marking, not a common combination and a worth while addition to a weak color class. Striking color as are all of Lemoine's. L \$1.50, M \$1.00, S 50c, Blts. 2-25c.

MAUVE X (Gilrey) Along the color of Mrs. Peters. Flowers are larger and will open ten on a long graceful spike. L 60c, M 35c, S 20c, Blts. 5-20c.

MELISSA (Errey) This beautifully colored exhibition variety that rates so highly in Australia is yellow buff with pink flaking on the edges of the petals. Flowers are perfectly spaced on a tall spike, about ten open. L 50c, M 35c, S 20c, Blts. 12-25c.

MILKMAID (Gilrey) Very large milky white with a mauve feather. Tall spike, about ten open, very well recommended in Australia. L \$1.50, S 50c, Blts. 2-25c.

MINUET (Coleman) This wonderful variety divides the supremacy of the lavender class with Bertie Snow. Its popularity at every show in every symposium proves it to be one of America's best five. L 10-80c, M 10-45c.

MISS JOY (Farnsworth) Pink prim with yellow throat, good sized wide open blooms on straight spikes, always a winner at Boston. Blts. 100-50c.

MOLLIE DOUGLAS (Australia) Rather similar in color to Emile Aubrun. Flowers large and many open, blooms early. L 75c, S 20c, Blts. 25-20c.

MOTHER MACHREE (Stevens) A fairly new smoky whose color is very difficult to describe and seems to vary depending on whether opened indoors or out and whether grown on heavy or light soil. Most every grower has seen it in bloom because of its great popularity, so all I can say is that it is one of the very best, tall spike many flowers open and well placed on the spike. Won best vase in the smoky class at A. G. S. Show this year. L 50c, M 35c, S 25c, Blts. 15-25c, 100-\$1.35.

MR. FREDERICK CHRIST (Diener) The best of the light pinks, much the color of Coryphee and has every good quality of that variety, but it is a much straighter grower. Blts. 10-50c.

MR. W. H. PHIPPS (Diener) In my humble opinion, this is the best exhibition variety I have grown in over fifteen hundred. Two years in succession it won championship vase at Boston and this year was best spike in the show at New York. We believe we have a strain that throws more exhibition spikes per dozen bulbs than the usual run of stock. L 10-50c.

MR. WILLIAM CUTHBERTSON (Mair) Tall spike of twenty buds about eight open, rosy pink with light center, ruffled and well placed on the spike. A very pleasing color and should make a good commercial as well as show variety. L 50c, S 20c, Blts. 10-50c.

MRS. ANNA PFITZER (Pfitzer) One of the best creamy whites, light yellow throat, buds have a decided greenish caste before they open. About ten or twelve very large blooms open at once on a tall straight spike. L \$1.50, M \$1.00, S 60c, Blts. 15c each.

MRS. CALVIN COOLIDGE (Kunderd) Best salmon pink prim that I know of for exhibition purposes. Its color is very fine, an upright grower and good for basket work. L 10-80c M 10-50c, Blts. 25-20c.

MRS. CATHERINE EDWARDS (Hornberger) Another fine cream that is really a wonder when at its best. Some spikes, however, come poorly placed but the good ones you get make it a well worth while variety. L 40c, M 25c, S 2-25c, Blts. 15-25c.

MRS. GALBRAITH (Mair). A salmon shade, flaked darker, flowers large, many open on a tall spike. One of the very best at its price. S 10-25c, Blts. 100-40c.

MRS. GERTRUDE PFITZER (Pfitzer) A fine new blue with darker throat, strong grower and good increaser. L 50c, M 30c, S 20c, Blts. 10-25c.

MRS. JOHN WOODS (Diener) Very large rose salmon on extra tall spike and many claim it to be identical with Mrs. Douglas, however Mrs. Woods shows very little if any flecking in the stock we have. L 10-50c.

MRS. LEON DOUGLAS (Diener) Above description fits here except for heavy flecking in this variety. L 10-50c.

MRS. RAY P. CHASE (Dr. Miller) A new white seedling with creamy throat. Blooms very large and a tall grower. Dr. Miller claims it to be very fine, in fact an improvement on Mammoth White. S \$1.00, Blts. 25c each, 10-\$1.50.

MRS. S. A. ERREY (Errey) Brilliant orange with an orange crimson blotch. Flowers are very wide open. Spike is strong and tall enough to carry the ten well placed enormous blooms and stay in the proper proportion. It is easily the best orange variety grown here for exhibition purposes, most orange varieties fade or burn badly when exposed to the hot sun and this variety is no exception. Pick it when the first bloom opens and put in a cool place and you will be repaid for your trouble. L 40c, M 25c, S 2-25c, Blts. 10-25c, 100-\$1.80.

MRS. TOM RATTRAY (Rattray) This variety with its bright rose pink flowers, long spike and many blooms open that are always perfectly placed still stands at the top of this class. After twenty years of showing, it still wins many championships in Australia and it is my guess that most of the wonderful new Australian things have come down from this famous variety. It does best in cool weather. L 50c, S 20c.

MRS. WHITLAW (Mair) This variety builds up a good spike of rosy salmon flowers with a white blotch which brightens up the whole flower. A fine exhibition variety. Blts. 25c each.

NELLY (Mair) Delicate rose color with a crimson blotch and one of Mair's best recent introductions. The spike is up to his usual standard and when more widely known, this variety will be very popular. L \$1.00, S 25c, Blts. 3-25c.

NETHERLAND PRINCE (Stevens) Considered by the originator to be one of his best. It is much like Mrs. Douglas except the color is salmon orange instead of salmon pink. Blts. 10-50c.

NOBILITY (Gilrey) Cream with a sulphur center, about eight well placed flowers of good size, one of the best I have had from Gilrey and well thought of in Australia. S \$1.00, Blts. 25c each.

OLIVE GOODRICH (Goodrich) Much along the color lines of Mrs. Dr. Norton but a more dependable grower in this climate. L 4-20c.

ORANGE BUTTERFLY (Salbach) My favorite among the primis. A rich bright orange in color with blooms perfectly placed and about ten open. If you want the best orange prim, grow this one. L 15c, 10-\$1.00, M 10-60c, S 10-30c, Blts. 35-20c.

ORION (Errey) Typical Errey spike with about eight open, good sized blooms of orange crimson. L 50c, Blts. 5-25c.

OTHELLO (Pfitzer) Clear violet blue flowers of good size and a real good variety that should be better known. L 20c, Blts. 25-25c.

OUR SELECTION (Ball) Salmon red, heavily flecked with darker shade and often marked on the edge of the petals with slate flecking, although often times these flecks are entirely missing, and the flower comes much lighter in color. Ten or twelve large ruffled flowers are not unusual. Won first prize at Boston in 1930. Blts. 10-20c, 100-\$1.50.

PALLAS (Errey) A pale lavender self or near blue. The blooms are of good size and well placed on long spike. A real good variety. L 50c, M 35c, S 20c, Blts. 5-25c.

PALMYRA (Gilrey) The color of this variety is almost identical to that of Picardy, except that a few blue gray flecks are sometimes found on the edges of the petals. The blooms are large and here we have a most unusual coloring that is very pleasing. Blts. 4-25c.

PANOPE (Errey) Light pink, flaked salmon with a yellow throat, large flowers well placed on a tall spike and makes one of Errey's best exhibition varieties. L 65c, Blts. 4-25c.

PAUL PFITZER (Pfitzer) One of the best of the newer purples. A good grower and easily the best in the low price field. L 2-25c, 10-\$1.00, M 3-25c, S 5-25c, Blts. 25-25c.

PEACH BLOSSOM (Mair) Truly the color indicated by the name. Immense exhibition spike of large flowers. L 30c, M 20c, S 2-20c, Blts. 8-25c.

PFITZER TRIUMPH (Pfitzer) Very large scarlet flowers which open flat and are six or seven inches across. Several open at once. One of the most popular in recent years. L 2-30c, 10-\$1.20, S 10-40c.

PICARDY (Palmer) The best American seedling we grew in 1931. Plant is a good strong grower and increases rapidly. Blooms are a very pleasing apricot color, large in size and well placed. Won first with this variety for largest individual bloom at Hartford. L \$10.00, Blts. \$1.00 each, 10-\$8.00.

PIMPERNEL (Mair) This variety is the best scarlet with white blotch that we have grown. It is tall with many large blooms open and when more widely known, will be very popular. L 75c, M 50c, S 25c, Blts. 4-25c.

PRICOTA (Australia) A good orange exhibition variety opening ten to twelve on a typical Australian spike. S 35c, Blts. 4-25c.

PRIDE OF OREGON (Damon) A seedling of Phipps that is promising. L 40c, M 30c, S 2-30c, Blts. 10-20c.

PRIDE OF PORTLAND (Ellis) Looks to be another Phipps seedling, scarlet in color and a good variety for this color class. S 2-25c, Blts. 20-25c.

PRIMROSE PRINCESS (Salbach) This is a large wide open primrose yellow, tall grower that opens many blooms and seems to be the best in the light yellow class. L 2-25c, 10-\$1.00, M 10-50c, S 10-25c, Blts. 100-25c.

PRINCESS MARY (Mair) Cream shaded peach rather similar to Queen Mary and much of the stock of Queen Mary that I have secured in this country has had this variety mixed with it. The difference in color is evident to anyone having grown the true Queen Mary. L 60c, M 40c, S 20c, Blts. 3-25c.

PROF. KESSOM (Krelage) A red with a vermilion blotch that has extra large flowers about seven open on a good spike. L 25c, S 3-25c, Blts. 10-25c.

PUREST OF ALL (Pfitzer) Absolutely pure white opening many blooms at once and a good white in spite of being rather short grower. L 3-20c.

PURPLE QUEEN (Kunderd) A real good ruffled purple variety, that can compete successfully with the more recent ones of this color. L 2-20c, 10-90c, Blts. 100-15c.

QUALITY (Mair) A salmon rose color, enormous spike with many open and the best of placement. Certainly has "quality". L \$1.00, S 40c, Blts. 2-20c.

QUEEN LOUISE (Pfitzer) Another fine white to add to the many good ones of this color from Pfitzer. Six or seven large flowers open at once that are rather greenish in the bud. One of the best. L \$1.00, M 60c, Blts. 10-75c.

QUEEN MARY (Mair) We rank this wonderful cream variety second only to Phipps in our list of the world's best. The spikes are very tall, blooms well placed and of fine texture. Will stand up as long as any in the show room. At Hartford, 1931, won best three spikes in cream class, best spike of foreign introduction and best spike in show. Spikes of this variety taken to Hartford and not used on Monday were returned and reshipped to the A. G. S. Show in Cleveland winning first in the open cream class on Friday. This variety will give a very large percentage of exhibition spikes but needs to be grown from large bulbs to show its true quality. In some weather a bit of pink will show at the edges of the ruffled blooms. **Jumbo Bulbs 65c each, L 50c, M 40c, S 25c, Blts. 10-50c.**

QUEEN OF BREMEN (Zimmer) The best rose pink prim. we know of as an exhibition variety. Will bloom easily from bulblets. **Blts. 30-20c.**

QUEEN OLGA (Gilrey) Large creamy white with yellow throat slightly pink on the edges, good exhibition variety. Stock scarce. **S \$1.25, Blts. 25c each.**

RAMESSES (Stevens) Very large ruffled blooms of peculiar formation, spikes tall with several blooms open. Is very popular and stock has been much in demand. **L \$5.00, M \$4.00, Blts. 35c each.**

RED GAUNTLET (Mair) Another exhibition red, flaked darker that will go a long way as an exhibition variety. Many open and well placed on a long spike. **L 80c, M 50c, S 25c, Blts. 2-25c.**

RED TORNADO (Ellis) Rich red with darker blotch, color stands up well in the heat. **L 30c, M 20c, S 2-25c.**

REV. C. O. ANDERSON (Australia) Attractive purple with a darker throat that from my short experience seems to have a future in this color class. **L 50c, M 40c, S 25c, Blts. 5-25c.**

RIPPLING WATER (Ellis) A strong competitor in the buff class and has done the best here of any from this originator. A bit more length of spike would make it a topnotcher. **Blts. 12-25c.**

ROB ROY (Mair) A red salmon flaked scarlet with a white blotch, large flowers on a good spike. **L 65c, M 40c, S 20c, Blts. 5-20c.**

ROI ALBERT (Lemoine) A very showy dark red smoky with a large cream throat, flowers large and spike tall, one of the best smokies from this originator and attracts much attention in the garden. **L 50c, M 30c, S 20c, 10-\$1.50, Blts. 10-25c.**

SENORITA (Salbach) Large blooms of true orange coloring with small carmine feather. Good propagator and plant of medium height. Has received many awards here and in England. **M 20c, S 2-20c, Blts. 20-20c.**

SCHWABENMADCHEN (Pfitzer) Pure pink self, blooms large, about eight open on a good spike, early bloomer. **L \$3.50, M \$2.25, S \$1.00, Blts. 30c each.**

SENATOR (Mair) One of Mair's highest priced introductions and one of his best. It is a dark salmon heavily striped scarlet, spike the usual Mair type, opening ten or more very large blooms. If you want the very best varieties don't miss this one. **L \$3.50, M \$2.25, S \$1.25, Blts. 25c each.**

SNOWWREATH (Mair) The only white from this originator and while the spike is his usual type with many open, the blooms are not as large as some of Pfitzer's whites. **L 50c, M 30c, S 2-30c, Blts. 5-25c.**

SPARKLER (Mair) Lilac red with a creamy center, good tall spike and rather early bloomer. **L 25c, M 2-25c, Blts. 15-25c.**

SPIRIT OF ST. LOUIS (Mueller) A wonderful orange that deserves all the good things said of it. Stands heat best of any orange we grow. Increases rapidly and should be best orange commercial. **Blts. 25-25c, 100-75c.**

ST. BRUNO (Mair) A new variety of Mair's just released. A peculiar salmon brown color whose edges are very slaty blue and this would fall in the smoky class and be a strong competitor against Marmora. **L \$3.50, M \$2.50, S \$1.00, Blts. 25c each.**

ST. CUTHBERT (Mair) Dark red with a white center. Many well placed blooms open on a very tall spike. **S 75c, Blts 25c each.**

ST. NICHOLAS (Mair) The last of the three "Saints" introduced in 1930 by Mr. Mair, all of which are worthy additions to the wonderful group of exhibition varieties that have come from Scotland and it is too bad that his varieties are not more widely distributed. This variety is a deep lilac with a white center and white lines in the petals. **Blts. 25c each.**

STRASSBURG (Brunelet) Dark pink with a cream center and crimson feather, blooms a bit ruffled and of good size. Spike tall with twenty buds and about eight open. **Blts. 3-25c.**

STUTTGARDIA (Pfitzer) Orange scarlet in color, no markings, blooms of good size well placed and one of the best of just this shade. **L 40c, M 20c, S 2-20c, Blts. 10-25c.**

SUNSET (Mair) Fine tall spike of orange apricot, a very attractive color, opens ten to twelve blooms on a tall fine spike and will go far as an exhibition variety. **L \$1.00, S 40c, Blts. 4-25c.**

SUNSHINE GIRL (Stevens) A new one from the originator of Mother Machree. Clear geranium pink that is attractive and as it is an early bloomer should be popular. **L \$1.50, M \$1.00, S 50c, Blts. 10-40c.**

SWORD OF MAHOMET (Ellis) A tall smoky brown variety that is one of the best at this price. **L 2-25c, 10-\$1.00, M 10-60c.**

TAJ MAHAL (Gilrey) Mother of Pearl color flushed white, flowers of good size, only grown two years here but looks promising. **M 60c, S 35c, Blts. 2-25c.**

THE ORCHID (Sprague) Resembles an Orchid in type, is pale lavender in color, opening four or five flowers at once. **L 10-60c, Blts. 100-25c.**

TINAMBA (Errey) Pale pink flecked with salmon rose, slightly cream in the center. Flowers very large and well faced on an extra tall spike; being a strong grower and of pleasing color, it should become very popular. **L 75c, M 50c, S 25c, Blts. 4-25c.**

TINTEX (Gilrey) Very fine old rose variety with clear yellow throat. About eight well placed large blooms open on a good spike. **L \$2.00, M \$1.50, S \$1.00, Blts. 2-30c.**

TOBERSUN (Austin) One of the very best yellows. Seven or eight open on a twenty bud spike. Blooms of the needle point type and very attractive formation. Surely one of the best three yellows. **L 35c, 10-\$3.00, M 2-40c, 10-\$1.80, S 2-25c, 10-\$1.00, Blts. 15-25c, 100-\$1.00.**

VEILCHENBLAU (Pfitzer) A large flower deep violet blue, tall and vigorous grower and easily the most popular in this color class, and was the tenth most popular of all varieties in A. G. S. symposium, 1931. **L 2-25c, 10-\$1.10, M 10-60c, S 10-30c.**

WINGED VICTORY (Briggs) A new pink whose blooms are enormous and due to the wing type of the petals will probably measure more than any variety we grow, although I do not like the formation of the flower. Placement not of the best. **L 50c, S 2-25c, Blts. 10-20c.**

ZEPHIA (Gilrey) A fine exhibition variety, about ten good sized lavender pink blooms open on a twenty bud spike. A vigorous grower and a good propagator. **L \$1.50, M \$1.00, S \$1.75, Blts. 2-25c.**
